

## 3.1.- Audit on occupational risks in the municipal water and water treatment facilities

### DESCRIPTION

The prevention of occupational hazards is a key milestone in the development of any work to be carried out in a facility.

### OBJECTIVES

Conduction of the occupational risk prevention audit.

### RESULTS / BENEFITS

- Comply with the current legislation concerning the prevention of occupational risks.
- Availability of a document to every worker who carries out their activity in the facility.
- Minimization of risk of occupational accidents.

### ACTIONS

- Field visit of the facilities with authorized personnel.
- Preparation of a report identifying the strengths and weaknesses of the service's preventive organization
- Determination of the actions to be taken to optimize the management of occupational risk prevention

### AIMED AT

Public administrations, public companies and municipalities with competencies over the service.
